

KOMPANION - IT ALL GETS DONE IN AN INSTANT

written by

John Simmons

INT AN EXAM ROOM IN A MEDICAL CLINIC

a DOCTOR talks with a PATIENT in an exam room. The DOCTOR is holding a cell phone.

NARRATOR

The Kompanion app from Ensofia is ready to do the work of 2 or more hours of clinical documentation in an instant!

INT A DOCTOR'S OFFICE

A doctor looks at an app on his or her cell phone

NARRATOR

Step 1 - open the app during in-office patient visits, or just talk to the patient on your office phone - the transcription (and translation if necessary) just works, and the visit is transcribed to a diary.

INT Doctor's Office A DOCTOR looks at their cell phone

NARRATOR

Step 2 - Click the summary button for a summary of the transcription

NARRATOR

Step 3 - Click to get SOAP Notes.

NARRATOR

Step 4 - Click to order prescriptions and labs as needed

NARRATOR

Step 5 - Click to submit billing codes

NARRATOR

Step 6 - Your EMR/EHR is updated. You can also update and maintain personalized treatment plans for your patients

NARRATOR

Step 7 - You are ready to track updated population health management.

2.

EXT Parking lot outside of medical clinic A doctor has exited the clinic and is walking to his/her car.

NARRATOR

Your patient documentation and orders are done without errors. You are free to spend the extra two hours with friends and family, doing something you enjoy!
